Mental Health, Learning Disabilities and Autism Collaborative annual conference

Thursday 21 November, 9am - 1,30pm, online

[Click here to register](#)

Humber and North Yorkshire ICB Domestic Abuse and Sexual Violence Network Webinar

Tuesday 21 of January

Please direct any questions to the safeguarding team at hnyicb.safeguarding@nhs.net

Further information can be found at their [booking page](#).

VCSE Collaborative Communications

Humber and North Yorkshire
Health and Care Partnership

Shine a spotlight on your work in health and care

Whether your group or organisation is shaping the design of services or delivering them, or if you advocate for, represent and amplify the voice of service users, patients and carers, we want to showcase your activities!

The Humber and North Yorkshire Voluntary, Community and Social Enterprise (VCSE) Collaborative, which represents the VCSE sector across Humber and North Yorkshire Health and Care Partnership (HNY HCP) wants to shine a spotlight on the work of the VCSE Sector and the impact we make across East Riding, Hull, North East Lincolnshire, North Lincolnshire, North Yorkshire and York.

The online template linked below is designed to capture your activities so the VCSE Collaborative can create a news/promotional post which will be shared across HNY HCP, and we hope will be useful to you for your own reporting. [Submit your case study here](#).

Representation

- An update following the York Health and Care Collaborative meeting
- Start to explore a set of principles for representation

Rachel Parker

System Change Lead, CMHTF Fund

VCSE Representation

CMHT Findings and progress

Update from York Health and Care Collaborative Meeting

York Health and Care Collaborative

Update from the York Health and Care Collaborative meeting, 31 October 2024 (*Mags Godderidge, CEO Survive; Rachel Parker, CMHT System Change Lead*)

- Key points from the meeting
- VCSE actions completed
- Reflections and considerations
- Next steps

System update at local level

Humber and North Yorkshire
Health and Care Partnership

The outlined vision for VCSE next steps within York Place

Aligning commissioning budgets

- ☐ Visibility of NHS and Council budgets
- ☐ Enabler to provider integration
- ☐ Outcomes-led approach

York Health and Care Collaborative

- ☐ Mutual respect, trust, and open communication
- ☐ All partnership work passes through here
- ☐ The driving force of health care and prevention in the York Health and Care Partnership
- ☐ Address inequalities, equity and promote prevention
- ☐ How would representation work?

Joint Delivery Boards

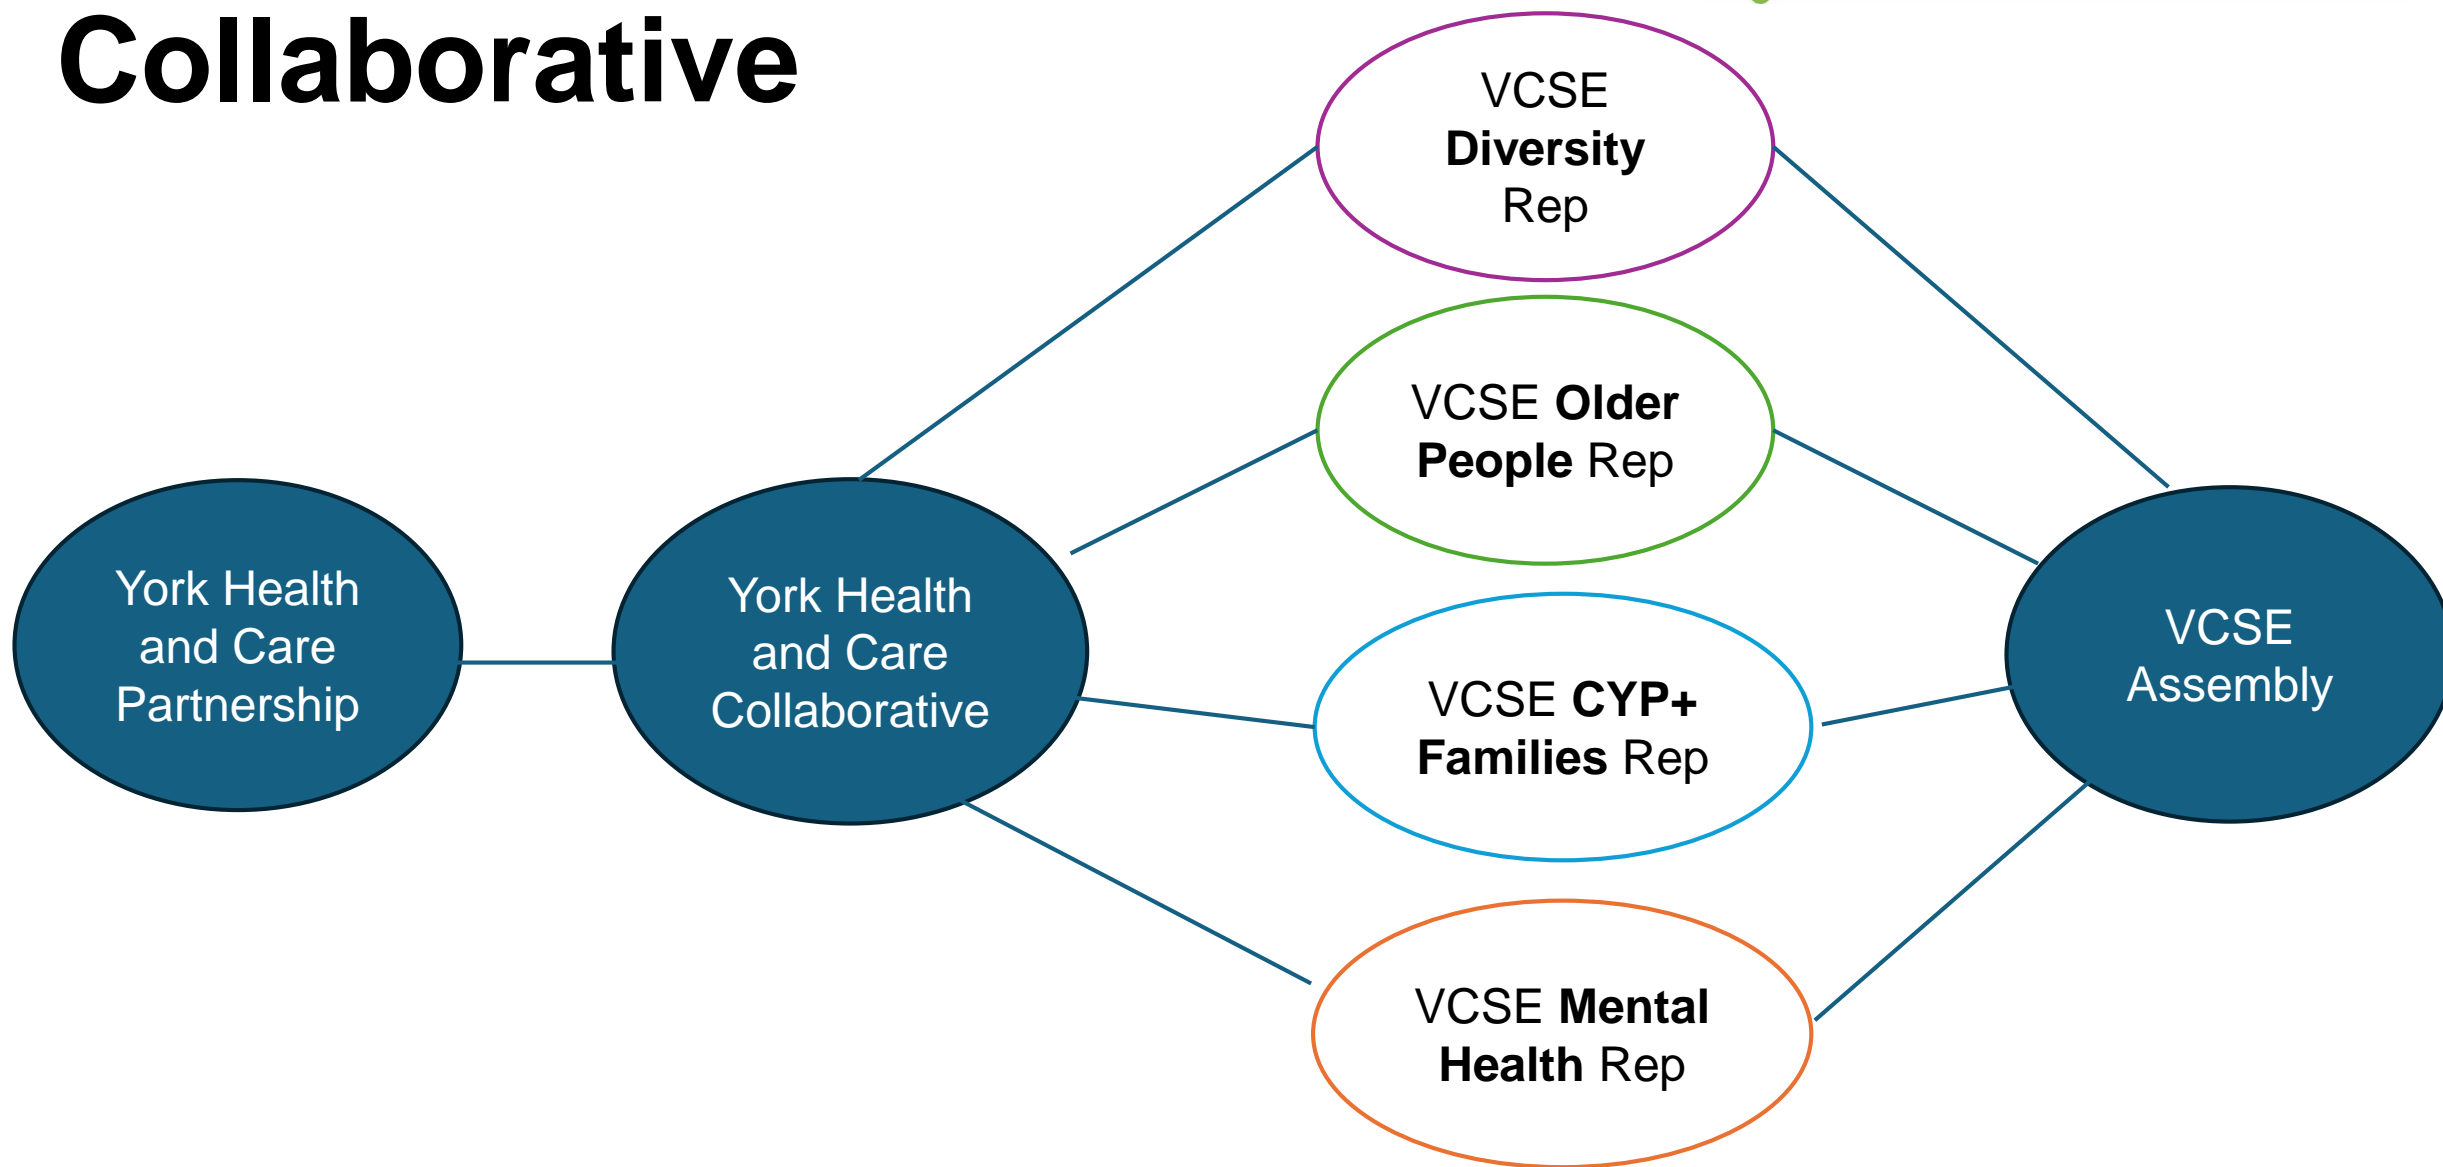

- ☐ Formalise integration between providers with as little structural reorganisation as possible
- ☐ Mental Health and Frailty - multi-agency provider representation
- ☐ Common set of a few measurable outcomes.
- ☐ Demonstrate added value from combining resources including shift to non-statutory
- ☐ Facilitates joint governance, workforce and estates planning

York Health and Care Collaborative

Humber and North Yorkshire
Health and Care Partnership

CMHT System Change: Representation

- Qualitative research that has pulled together findings from assemblies, consultation, focus groups and observations
- Headline findings demonstrated importance of representation that is **inclusive and transparent**, that **fosters a culture of collaboration and unity** and that **gains traction, action, momentum**
- Principles of working in draft - outlining aims, ideal representation nomination/selection process, shared responsibilities and process for managing any issues that may arise
- Next steps - steering group consideration of principles then presented at next assembly, with ongoing review using delegated VCSE representation at the York Health and Care Collaborative as a test bed

Future Model and the role of YHCC

- Since early 2024, the NHS and Local Authorities have been working on understanding how to realise the ambition of integrated working with the aim of creating a new, more rounded, approach to primary, community, and social care. This is a long held ambition going back 15 years or more (remember Care Closer to Home) but has proved elusive to deliver in practice.
- **In York, City of York Council (CYC) have been focussing on communities, localities, and neighbourhoods while the NHS York Place team have been looking at what would enable primary and community care to work together better (sometimes called 'out of hospital' care).**
- **Integrated Neighbourhood Teams (INT)** were cited as an ambition within Claire Fullers report The Fuller Stocktake - Next Steps for Integrating Primary Care (2022) where **GPs, community health, and social care worked together, especially at a neighbourhood level, to resolve complex problems often for the most vulnerable in our society.**
- With a strategy model now developed, it is envisaged the role of YHCC will adapt to help York Place Board deliver the vision for York.

INT guiding principles- Downham and Jansen

- Meeting need that can *only* be met with a team-based response.

- Efforts to meet need though simpler models have been exhausted. *[This can be achieved during the INT prototyping - learn by doing]*

- Context and environment is one of the main determinants for the person's current needs.

- Needs > Function > Form.

- Constancy of purpose and shared accountability across the whole team. *[Unity of Effort]*

INT guiding principles continued

- **See the whole person.** [Their strengths as well as their needs, their personal and their local context] and tailoring the support/care accordingly *[holistic - true person-centredness]*

- **Community is the foundation of the team.**

- **Maximum effective continuity.** *[Transitions and handovers are the enemy]*

- **Fluidity in roles between system partners.** *[Role generosity and deliberate overlap]*

- **Doing what is needed, and bringing in who is needed.** [In support of shared purpose, specialists consult in]

- **Supporting the professional on the frontline, trusting them to execute their professional judgement.** [Through information, technology, managerial, financial etc support that help not hinder] *[Trust the professional - counter the illusion of control in the current system]*

YHCC role in 2025

- Reporting to Place Board (York Health and Care Partnership) YHCC is seen as the 'engine room' supporting integrated working.
- The co-chairs will shift to allow joint CYC/GP leadership of YHCC with NHS/ICB and CYC in a position to align place board decisions with Local Authority and NHS objectives.
- The 'INT Development' layer will be a sense check: are proposals at a neighbourhood or city-wide level to determine if Integrated Neighbourhood Teams (geographically local to defined neighbourhoods) or Hubs (universal access). At a time of change, semantics matter so folk know and understand what they are working on in the bigger context.
- The 'Oversight' layer will assess operational and financial deliverability; the last part of the assessment offered by YHCC to Place Board to make service change decisions.
- Emma and Jenni will offer two case studies to illustrate how working in this new way will help current care for our citizens ...

Supporting Co-Design and Delivery

Humber and North Yorkshire
Health and Care Partnership

- A governance structure has been agreed in principle (Q3 2024) allowing York Health and Care Collaborative to provide cross sector leadership, oversight, and assurance on the aims, deliverability, and expected outcomes of multi-agency INTs.

York Health & Care Collaborative (YHCC)

Role	General Practice	Local Authority	ICB/Place	Role Descriptor
Chairs / Governance	Dr Emma Broughton	Pauline Stuchfield	Shaun Macey	Interface with Place Board, and own organisational strategic direction of travel and decision making forums
INT Development	Dr Becky Field	Laura Williams	Martin Braidwood	Co-design and development of INTs at York Place localities appropriate to priorities and identified locality needs
Oversight (insight)	Zulf Ali	Joe Micheli/Sian Balsom	Dr Becky Brown	Connection to delivery. Experience of mobilising multi-agency services. Understand existing services and relationships to support integration.
	Line of sight to GPs, PCNs, and Nimbuscare	Line of sight from board to floor + CVS	Line of sight from SLT to commissioning support	Aim: informed 2-way decision-making between YHCC and YHCP in structured 'board to floor' way

Commissioning Set of Principles
