Welcome to Age UK York

For over 50 years we have together helped older people, and those around them. Can you join our team to help us be there tomorrow?

Thank you for taking the time to explore our Head of Finance role here at Age UK York. The role leads and manages our wonderful finance team, which as part of our wider support functions, vitally forms the foundations of our charity and by which together we can best support local older people and those around them. We have done much to strengthen our financial resilience over recent years though there is an exciting opportunity to take it forward, bringing your own experiences, expertise and passion to help us continue to make a positive difference in helping others and both shape and sustain our future.

So why Age UK York?

Whilst part of the well-known Age UK national network, Age UK York is an independent standalone local charity. Our focus is ever on York and our city's people and communities.

We believe that an ageing population is a cause for celebration though we also know that too many older people feel marginalised, overlooked and often cannot access the support they need to enjoy a good quality later life. We are here to tackle some of these challenges including loneliness, poverty, social isolation, health and inequalities. We can only do this with robust financial management and helping to safeguard and grow our future to ever be there. Our Head of Finance will be at the heart of helping us to achieve this and shaping our future.

Age UK York is a fantastic place to work. I am so fortunate as our CEO to lead and work alongside our exceptionally talented, compassionate and driven staff and volunteers and I look forward to doing so alongside our new colleague and all we can achieve in helping others.

Please do read on and learn more about the vital contribution you would make to our team

Thank you and we hope to hear from you.
